

Access to GP records by Frimley Park Hospital (FPH) A&E Department and Frimley Primary Care Service (FPCS) GP out-of-hours centre

The surgery allows the A&E department at FPH as well as FPCS GP out-of-hours centre potential access to the GP records of our patients attending that department. A&E and FPCS will only be able to see that information if the patient gives their explicit consent at the time of attendance. This system is known as EMIS Web data streaming.

The information made available will include important diagnoses, medications, allergies, past operations and past medical history. The hospital already has access to investigations (such as x-rays) performed at the hospital, and bloods test results.

How will my information be made available?

The information is "streamed" in real time and on-demand, meaning that data from your GP record is neither extracted, nor uploaded, nor sent anywhere. The data remains within the surgery database and A&E/FPCS is only allowed to "view" it.

Is this the same as the Summary Care Record (SCR), the Hampshire Health Record (HHR)?

Absolutely not. This type of data streaming has nothing whatsoever to do with those NHS databases.

In contrast to the SCR and the HHR:

- No data whatsoever is extracted and uploaded from your GP record
- The data remains within the surgery database (and so is not sent to a 3rd party data repository)
- The surgery remains the data controller (or *data guardian*)
- The surgery controls who has access to your information
- The surgery can monitor who has accessed your information
- Your records from other sources, such as hospital trusts & mental health services, will not be extracted and combined with your data
- As no information is extracted or uploaded, it cannot be subsequently used for additional (or "secondary") purposes, and so cannot be misused, disseminated, sold, or used in ways that you might object to or might not be aware of

Will I be asked before my GP record is looked at?

Yes, you will always be asked for your explicit consent before anyone can look at your record. You can agree or refuse, as you prefer, on any given occasion that you have need to attend A&E or FPCS.

Will my GP record be looked at if I am not present in A&E/FPCS?

No – because your explicit consent, in person, is always required. The surgery can monitor whose records are being looked at and if needs be can match such access occasions with A&E/FPCS attendances (see later).

Can A&E or FPCS alter, change, or add to my GP record?

No. The GP record is a read-only view, and it is impossible for them to amend, delete, or add to your GP record.

Who exactly will be looking at my record?

Only clinical staff within Frimley A&E and FPCS that have need to look at your GP record in order to provide you with direct medical care will have access. They will be able to monitor which of their staff have accessed GP records, and whose records have been accessed in this way.

No other organisation can look at the information, meaning that other GP practices, the CCG, NHS England, the HSCIC or the Department of Health *cannot* access your GP record in this way.

It is therefore a *locally* accessible scheme.

Can I control what parts of my GP record are viewable in this way?

Yes, you can. Your GP can apply a “confidentiality policy” to any aspect of your GP record, rendering it hidden to A&E/FPCS (though you can, of course, disclose that information in person if you so wish).

You can agree with your GP which items within your record you want them to be able to see, and which items you do not want them to have access to.

Will the surgery be able to monitor access to the system?

Yes. The surgery remains the data controller and we can view and monitor access through the surgery system.

Will I be able to find out if and when my GP record was accessed in this way?

Yes. The surgery will be able to tell you exactly when your record was accessed, and by whom. All you need to do is ask.

What if I have opted out of the SCR, the HHR, or all secondary uses of my GP record, such as risk stratification?

Data streaming has nothing whatsoever to do with the NHS databases, or any similar project that extracts and uploads your data outside of the GP surgery. Accordingly, opting out of any of those will not automatically disable EMIS Web data streaming. You can remain opted out of any, or all, of those projects whilst still allowing A&E/FPCS to view your GP record, with your explicit consent, via this data streaming scheme.

What if I am not happy – can I opt-out of this data streaming project?

Yes. You have the right not to allow your data to be viewable by the hospital in this way, if you do not want it to be.

If you wish to opt out of EMIS Web data streaming then simply fill in the opt-out form in this factsheet and hand it in to the surgery (either site).

Alternatively, you can email Dr Neil Bhatia (Neil.Bhatia@nhs.net) with your opt-out wishes

If I opt-out of data streaming, will that automatically opt me out of the SCR, the HHR, or secondary uses of my GP record?

The opt-out from EMIS Web data streaming is specific to that type of data sharing, and will not opt you out of the Summary Care Record or all secondary uses. It *will* however opt you out of the Hampshire Health Record (completely) and risk stratification (see separate leaflet). It *will* also opt you out of the data sharing scheme with Phyllis Tuckwell Hospice Care (see separate leaflet).

If you have already opted out of the SCR, the HHR, or secondary uses of your GP record, then those opt-outs will remain in force (whether you opt-out of EMIS Web data streaming or not).

Those opt-outs are *unaffected*.

If you haven't opted out of the SCR, the HHR, or secondary uses of your GP record, and you wish to, then you should opt-out *in addition* to any opt-out from EMIS Web data streaming.

If you would like any further information about secondary uses, opting out, or about any other aspect of NHS data sharing, then please do contact the surgery's [Caldicott Guardian](#) / Information Governance lead:

Dr Neil Bhatia

Opt-out of EMIS Web data streaming

Please fill this form in if you **DO NOT** want your GP record to be viewable by both FPH A&E and FPCS GP out-of-hours centre.

- **Please disable EMIS Web data streaming for my GP record**
 - I understand that this will prohibit A&E and FPCS from having direct access to my GP medical record
 - I understand that this opt-out will in no way affect access to my GP record by my GP surgery
 - I understand that this opt-out will in no way prevent my GP surgery from providing information, when required, to A&E and FPCS, in person, by phone, fax, text, letter, email, or e-referral
 - I understand that I can change my mind at any time and allow A&E and FPCS to access my GP record in this way
 - I understand that this opt-out will not automatically opt me out of the Summary Care Record, or all secondary uses of my GP record, and that I will have to opt-out separately if I wish to prohibit those particular uses of my personal confidential information
